

The Dutch delegation displayed best practices without multimedia support.

Below is the summary of what was reported:

Waste management:

- Encourage Youth to buy secondhand clothes
- First experiences of lack of water in the last 10 Years. We gathered ideas on how to collect water. Glass cans instead of plastic, for free. You pay a little extra and then get back the money

What needs to be done?

- Youth are not organised we need to find ways to connect Youth
- Make “green” more appealing
- Change approach from top-down to bottom-up
- Make cooperation sustainable
